

GRANDPA

Ajay Karageorge

It was so hard when i lost you i never thought i would find you
It was fun having you but not so fun letting you go
but i know you're still with me
In the night and the day even when it rains
you've caused me some pain but I know it will go away
We've had good times in the past but I knew it wouldn't last
It was a hard time
I wouldn't go through it for a dime
I remember giving you a kiss but i never knew it would miss
all those memories And good times
Those were my favorite moments
I've been to yourself a million times and every time i've loved it
When you're around the breeze is calm
The air is warm,
we're in the creek man does it reek
My grandma came over just to take a peek to see if we're alright
You brought her in tight
she put up no fight
And that's where we ended the night
It is a challenge to not see you but at least i have you in my memory
I know you're with me right now

Thank you
